

A MEMBER OF THE  
**HILGER&KERN** GROUP

# Metering and Mixing Technology for System Integrators

Greasing, Oiling, Bonding,  
Potting and Gasketing

# 6

## Reasons why DOPAG is unique

1. Family owned company
2. One partner for all applications
3. All metering and mixing technologies
4. Experience and passion since 50 years
5. All Industries
6. Worldwide Availability

# 1.

## Family owned company

### You can rely on us

We guarantee with our name for our business.

Dispensing technology is our passion

**350** Employees worldwide

### Your advantage

#### One strong group of companies with three brands

##### DOPAG

Global brand for metering and mixing technology in the „high-end“ Segment

##### METER MIX

Global brand for metering and mixing technology for manual applications

##### Hilger u. Kern Industrietechnik

Brand for drive technology, industry electronics and vibration technology

The GROUP appears as “holding” in the background and it is also the signature of the administrative divisions in Mannheim: Management Board, Human Resources, Reception, Accounting, Controlling, IT, Marketing and Supply Chain Management (Purchasing and Storage)

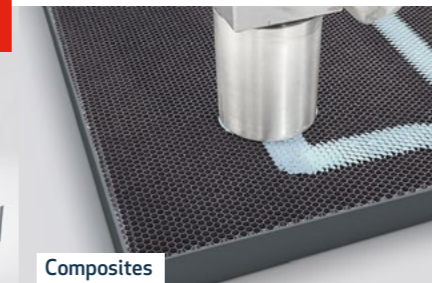

# 2.

## One partner for all applications

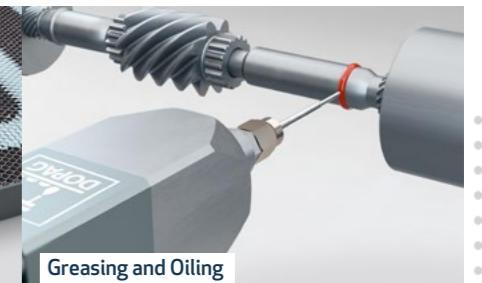

DOPAG is your single source for greasing, oiling, bonding, potting, gasketing

Potting

Composites

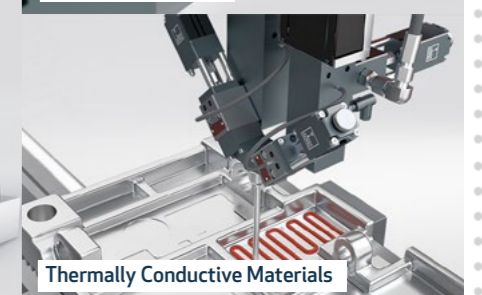

Greasing and Oiling

Bonding and Sealing

Gasketing/FIPFG

Thermally Conductive Materials

# 3.

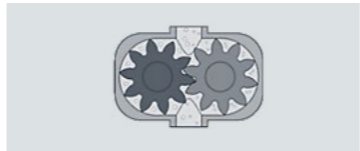

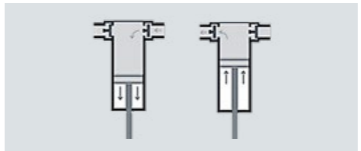

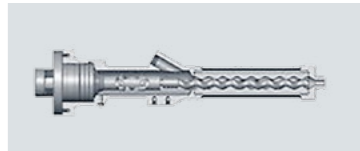

## All metering and mixing technologies

### The most precise way for dosing

- For exceptionally long service life
- For significant reduced TCO
- For high flexibility
- For high precision
- For a wide range of applications
- For easy and intuitive operation
- For all common materials

We advise technology-neutral, because we offer all three metering technologies

<p><b>1.</b> Gear pumps</p>  	<p><b>2.</b> Piston pumps</p>  	<p><b>3.</b> Progressive cavity pumps</p>

### Our comprehensive product range

				
<b>Metering components + pumps</b>	<b>Metering and mixing systems for 1-component materials</b>	<b>Metering and mixing systems for 2-component materials</b>	<b>Dynamic mixing system</b>	<b>Automation</b>
<ul style="list-style-type: none"> <li>• Drum pumps</li> <li>• Gear pumps</li> <li>• Progressive cavity pumps</li> <li>• Material pressure regulators</li> <li>• Dispensing valves</li> <li>• Metering valves</li> <li>• Components for monitoring and control</li> <li>• Accessories</li> </ul>	<p><u>GEAR METERING SYSTEMS</u></p> <ul style="list-style-type: none"> <li>• eldodis</li> <li>• coredis</li> </ul> <p><u>PISTON METERING SYSTEM</u></p> <ul style="list-style-type: none"> <li>• vectodis</li> </ul> <p><u>PROGRESSIVE CAVITY PUMP</u></p> <ul style="list-style-type: none"> <li>• rotordis</li> </ul>	<p><u>GEAR METERING SYSTEMS</u></p> <ul style="list-style-type: none"> <li>• compomix</li> <li>• eldomix</li> <li>• evomix DF</li> <li>• gelcomix</li> <li>• gluemix</li> </ul> <p><u>PISTON METERING SYSTEMS</u></p> <ul style="list-style-type: none"> <li>• vectomix + vectomix TC</li> <li>• variomix</li> <li>• economix</li> <li>• silcomix</li> <li>• coatingmix</li> </ul> <p><u>PROGRESSIVE CAVITY PUMP</u></p> <ul style="list-style-type: none"> <li>• rotormix</li> </ul>	<ul style="list-style-type: none"> <li>• dynamicLine</li> </ul>	<ul style="list-style-type: none"> <li>• Production cell</li> <li>• Stand-alone systems</li> <li>• Individual systems</li> </ul>

## Sustainability

- ✓ CO2-neutral electricity in our production
- ✓ Reduced power consumption of the metering and mixing systems
- ✓ In the material supply: no unnecessary material remains in the containers
- ✓ Long-lasting products thanks to high quality standards

# Modular system for customised solutions

## Designed to meet your challenges

DOPAG systems are configured according to individual customer specifications using our broad range of high-end components.

### MATERIAL FEEDING

Drum pumps

Transfer pumps and refilling units

Pressure regulators

Pressure vessels

### METERING TECHNOLOGIES

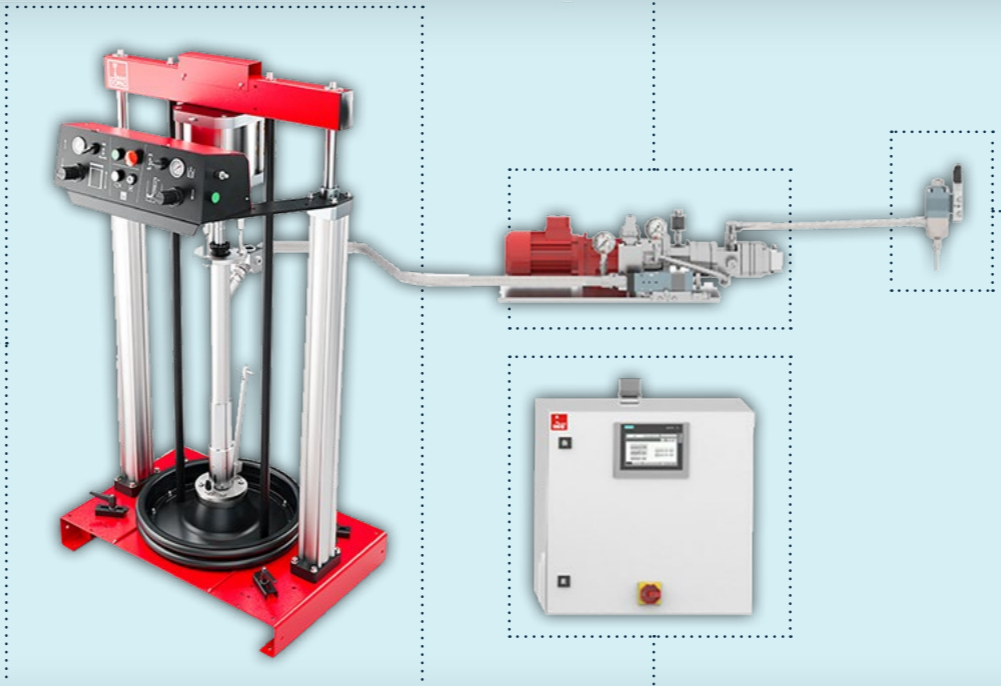

Gear pumps

Piston metering units

Progressive cavity pumps

### MONITORING & CONTROL

Control units

Gear flow meters

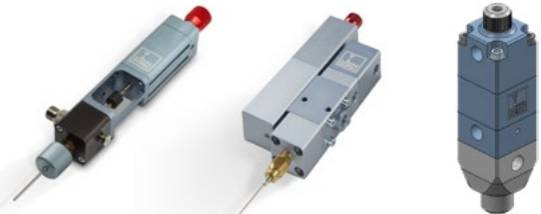

Different sensors

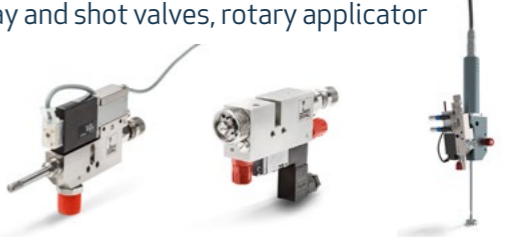

### APPLICATORS

1K

Metering and dispensing valves

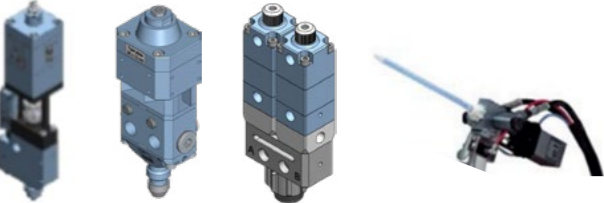

Spray and shot valves, rotary applicator

2K

2K valves for static mixers

Dynamic mixing

Static-dynamic Mixing

Dynamic mixing head

# 4.

Experience and passion  
since 50 years

**2.000**

Materials in our database  
(tested and processed)

**7.000**

Installed 1K and 2K  
dispensing systems  
worldwide

**20**

International patents

# 5.

## All Industries

We know all  
these industries inside  
out

End-to-end project  
expertise:

Support from  
project planning to  
commissioning

Household Appliances

Automotive and E-Mobility

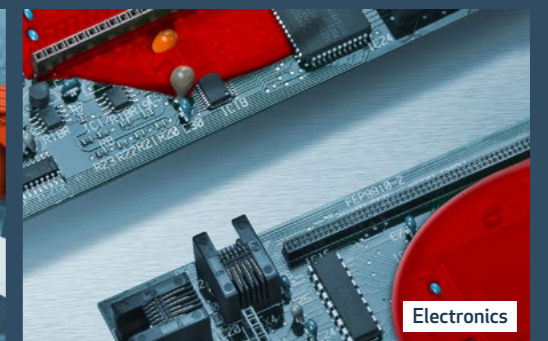

Aerospace

Transport

Wind Power and Renewable Energies

Electronics

Filter Manufacturing

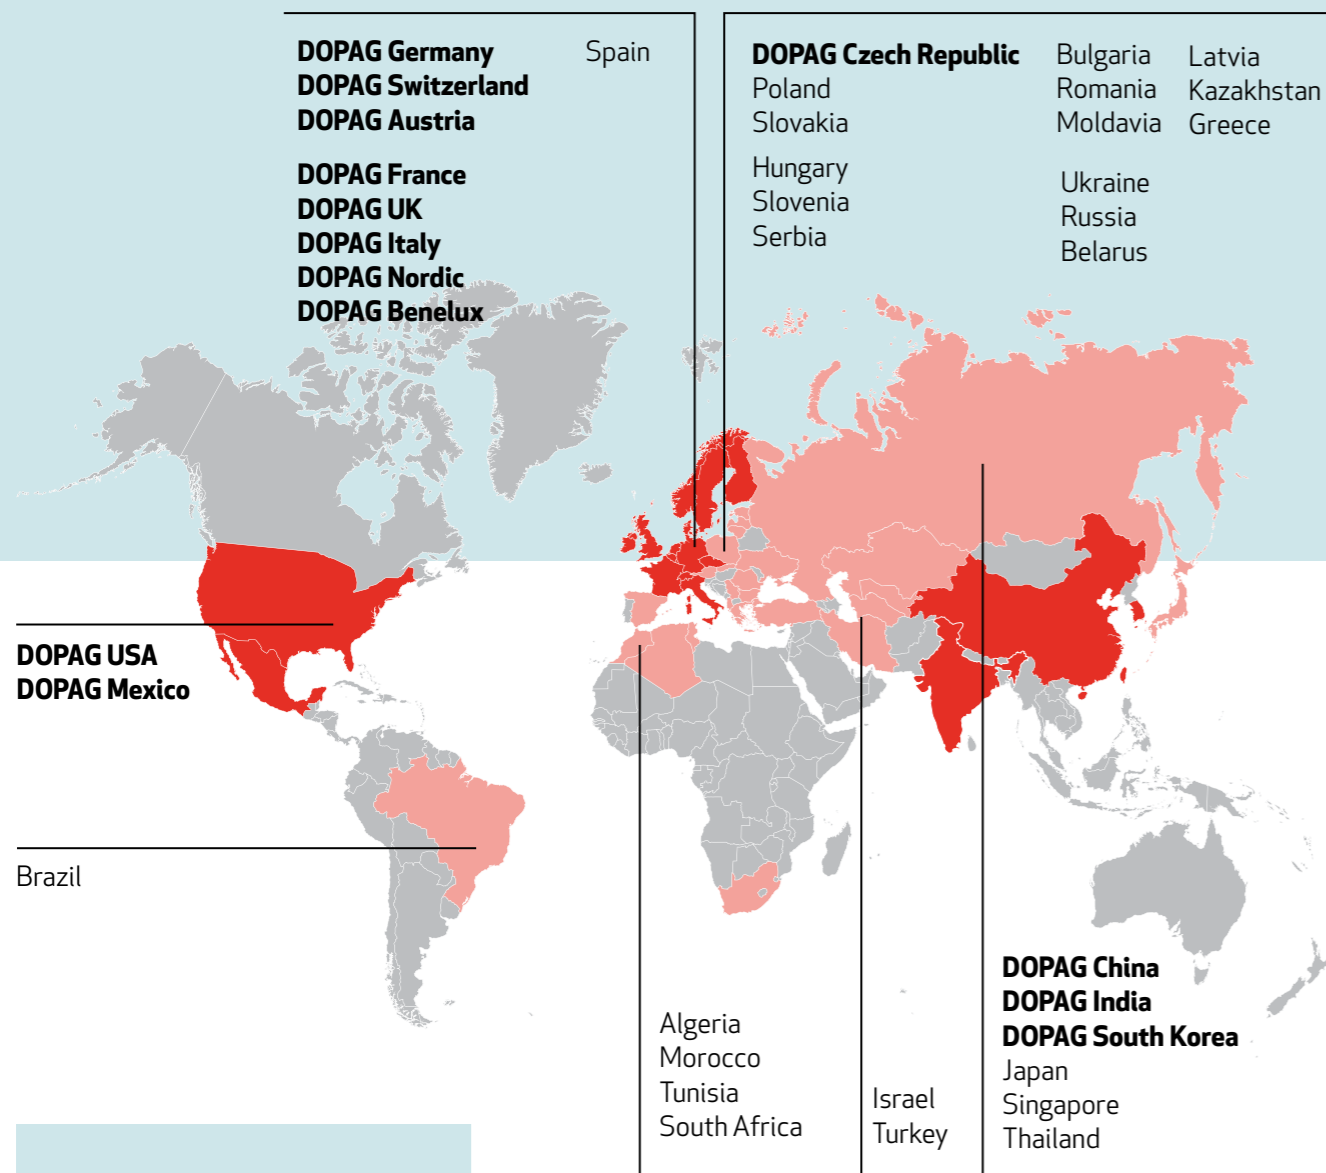

Mobile Energy and Batteries

Medical Technology

# 6.

## Worldwide Availability

**13 + 35**

Own Branches + Sales Partners

- Technical advice locally
- High service availability
- Quick spare parts delivery

**5**

**Production Locations**  
 Germany, Switzerland, India, France, UK

## Be part of our tier-network

Our machines are in operation at all major tiers around the world

## These OEM companies rely on our products

## Realised projects

Individual solutions for integrators

Greasing of a ball screw drive with a chamber metering valve

Automated sealing for the production of cardan shafts

Secure bonding of tailgates and highrates
